

# Learning Log: Review a slide presentation

## Instructions

You can use this document as a template for the learning log activity: Consider how data analysts approach tasks. Type your answers in this document, and save it on your computer or Google Drive.

We recommend that you save every learning log in one folder and include a date in the file name to help you stay organized. Important information like course number, title, and activity name are already included. After you finish your learning log entry, you can come back and reread your responses later to understand how your opinions on different topics may have changed throughout the courses.

To review detailed instructions on how to complete this activity, please return to Coursera: [Learning Log: Review a slide presentation](#).

<b>Reflection:</b>	Write 2-3 sentences (40-60 words) in response to each question below:		
<b>Questions and responses:</b>	<ul style="list-style-type: none"><li>• How effective was the overall presentation? <i>It was very effective as it was able to convey all the questions and information that were asked by the stakeholders.</i></li><li>• What would you do differently for this presentation? What would you do the same? <i>I would try to show some interactive VIZ so people will take more interest in my presentation.</i></li><li>• How can you use presentation best practices to help you create your own slide decks in the future? <i>I would keep this as base presentation and can build my own presentation based on it.</i></li></ul>
