Learning Log: Think about data in daily life

Instructions

You can use this document as a template for the learning log activity: Think about data in daily life. Type your answers in this document, and save it on your computer or Google Drive.

We recommend that you save every learning log in one folder and include a date in the file name to help you stay organized. Important information like course number, title, and activity name are already included. After you finish your learning log entry, you can come back and reread your responses later to understand how your opinions on different topics may have changed throughout the courses.

To review detailed instructions on how to complete this activity, please return to Coursera: Learning Log: Think about data in daily life.

Date: <enter date>	Course/topic: Course 1: Foundations: Data, Data Everywhere
	Learning Log: Think about data in daily life
Everyday data	Create a list of at least five questions: 1. When should I go to the market? 2. When should I book a flight ticket to get cheaper rates? 3. How much time should I spend on my exercise? 4. Which grocery shop is more cheaper 5. How should I crack a Google interview? Now, select one of the five questions from your list to explore. *Selected question*: When should I book a flight ticket to get cheaper rates?
Reflection:	Write 2-3 sentences (40-60 words) in response to each of the questions below.
Questions and responses:	● What are some considerations or preferences you want to keep in mind when making a decision? *I will try to learn on which day flight rates are cheaper. I will try to search for flights that give me a good discount offer. I will try to search for flights that is/is not directly to my destination.* ● What kind of information or data do you have access to that will influence your decision? *Flights rate from different sites* *Different sites that offer me flights booking* *Days on which flights rate is low* ● Are there any other things you might want to track associated with this decision? *Trend in change of flight rates*
